illustrating various subassemblies corresponding to associated assemblies as between the embodiments of the FIGS. 2-5, with a total assembly illustrated as (A) and subassemblies (B)-(J); --.

R E M A R K S

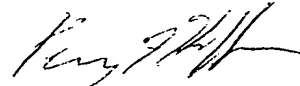

The instant Preliminary Amendment was necessitated by the Notice Of Omitted Item(s) In A Provisional Application filed under 37 CFR § 1.53(b), mailed February 25, 2002, from which Applicants confirm that a Figure 3D should not be present in, or described in, the specification. In particular, the embodiment of Figure 3 does not have a component which would relate to "D" as described in connection with the other embodiments of Figures 2, 4, and 5. In particular, it would be appreciated that the wheel subassembly of Figures 2D, 4D, and 5D in relation to their respective embodiments would not be present in the embodiment or described in connection with Figure 3, and thus there is no Figure 3D.

No new matter is introduced into the application, and entry of this amendment is respectfully requested.

Respectfully submitted,

FITCH, EVEN, TABIN & FLANNERY
